

How to craft your chosen sculpture

To create your flower display:

1. Arrange some artificial twigs, with leaves, in a vase
2. Place a spot of all-purpose glue on the end of your green stick and glue on your sculpture
3. When dry, place your stick in the vase and arrange to suit
4. Add further sculptures at will

To create your gift card:

1. Fold a strong A4 blank sheet of paper in half and write your message inside your gift card
2. Arrange and glue your sculpture onto your gift card and leave to dry
3. Write your recipients address on the face of your envelope
4. Insert your card into the envelope, tucking some padding around your sculpture, then seal the envelope
5. Deliver, or send, to recipient. Don't forget to add a stamp if you are posting it

To create your present decoration:

1. Take your wrapped present and position your sculpture so that it looks right
2. Apply a blob of all purpose glue to the rear of your sculpture and glue it in the previously chosen position

To create your fridge magnet:

1. Glue the magnetic strip to the centre rear of your sculpture
2. When set, attach your sculpture to your fridge
